Beat Surgeries

Both Williton and Watchet host beat surgeries where you can meet with local officers to discuss any concerns, report crimes, provide information about incidents, or seek advice.

These occur every four weeks and are located at the Williton Parish Council office or Watchet Police Post respectively.

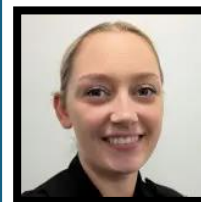

Time and dates for the next beat surgery will be on posters in the window of each location.

Bike Marking

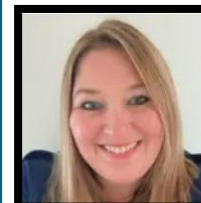

As the weather warms up, a Bike Marking event will be organized at the Watchet Police Post during one of the Wednesday markets. This is the best way to ensure if your bike gets stolen, and we recover it, we are able to return it to the rightful owner quicky and easily.

Please check the events section at - www.avonandsomerset.police.uk/your-area/williton-and-watchet - periodically for the date, which will be posted there. We will also ensure a notice is distributed to the local area.

Meet the team.

Trailer Marking

In partnership with the NFU, officers conducted trailer marking at Cutcombe Market near Wheddon Cross.

Officers used this opportunity to tell farmers about the best preventative measures to adopt on farm and to provide a limited number of agricultural trailer marking kits, free of charge, to attendees at the market. One of the best ways to deter criminals is to ensure farm vehicles are marked using security or forensic markings and if a trailer is stolen, it can be more easily identified and returned to its rightful owner.

Plans are underway for another trailer marking event near M5 Junction 24, just outside Bridgwater, though a date has not yet been set. Stay tuned to social media for updates.
